

I, Pia Rosenberg Toro, am writing in support of bill 369 .

I have personally witnessed Alyssa receive feedings from non medical personnel in the past and find it is unnecessary to have medical staff present for her feedings.

I strongly believe that Alyssa should be able to be cared for by whomever she is most comfortable with, especially in the school setting. The Temkin family has worked tirelessly in the best interests and care of Alyssa and by passing this bill, they would be able to have more resources and people available to aid in Alyssa's care.

Sincerely,
Pia Rosenberg Toro
